***The Pedens of South Carolina, Volume One:  
John Peden and Margaret McDill and Their Descendants in America***

*Edited by James Mark Paden*

John and Peggy McDill Peden were part of a large family migration of Pedens, McDills, Mortons, and Alexanders who came in 1768, 1771, and 1772 to the Province of South Carolina, where they secured royal land grants on the Tyger River. The men served in the Spartan Regiment of the South Carolina Militia during the American Revolution, and in 1786 were founders of the Fairview Presbyterian Church in Greenville County. In the centuries since, their descendants have celebrated their family roots and connections. The tradition of a Peden/Paden Reunion in Fairview was begun in 1899. Originally held every ten years, in 1955 it evolved to an annual event and now draws hundreds of close and distant relatives yearly from across the country.

Nine of John and Peggy's ten children left descendants, who now number in the tens of thousands. Two earlier books, titled *The Pedens of America*, were compiled in 1900 and 1961. The oral histories and family documents on which they were based provided extensive clues to the family relationships and preserved family stories.

*The Pedens of South Carolina: John Peden and Margaret McDill and Their Descendants in America, Volume One*, is a completely new book, based on recent research and analysis, expanded records access, and DNA testing. It details the first five generations of the family with the sixth generation descendants listed as well. The title change reflects the descent of these families from the Pedens who settled in colonial South Carolina, as opposed to unrelated Peden families that settled in colonial Pennsylvania, Virginia, and North Carolina.

The new book begins with six chapters that narrate and document the story of the family's origins in Scotland and Ireland, their emigration and settlement in South Carolina, participation in the American Revolution, the early ties with Chester County, and the settlement of Fairview in 1785 and 1786.

One chapter for each of John and Peggy's ten children follow. Each begins with a narrative of the early history of that branch with full documentation. Extensive research in original documents (land grants, deeds, wills, census) has greatly expanded and improved the accuracy of that history over the earlier books. The bulk of each of these ten chapters is a listing of the descendants of that line through the sixth generation. A simplified descendant numbering system has been utilized that makes it much easier to follow the lineages. The book's every-name index includes more than 8,000 individuals.

*The Pedens of South Carolina* reflects the contributions of dozens of descendants who shared information, and years of research and work by the historians of the individual family lines: James T. Hammond, Barbara McDaniel Ray, James Mark Paden, Bruce Price Reynolds, Monya Fillinger Havekost, and Sharon D. Peden. Mark Paden's dedicated leadership, sound judgment, and persistence as author of the narrative historical chapters, and as the editor, is reflected throughout the book. Peden descendants have a heritage, and a record of their family, of which they can be proud.

***Growing Up the Hard Way***  
***A memoir by Jim "Red" Kulpan***

James N. "Red" Kulpan grew up in a Norfolk, Virginia, Navy family. From his troubled early years and during the tough World War II era, Red developed into an outstanding student and athlete at Norfolk's Granby High School, where a major transformation took place in his life.

His early misadventures are recounted in this book, along with the challenges and influences that helped him change. In addition to becoming a student leader, Red was a football, basketball, and track standout on the championship teams still considered to be Granby's glory years in sports.

Much of Red's later success in life, as a Duke University varsity basketball player, parachuting Air Force intelligence officer, and thirty-five years as a hospital CEO, he attributes to the lessons learned from his teachers, coaches, and fellow students at Granby.

He diligently crafted his book late in life during, and despite, his ongoing battle with Parkinson's Disease. It is a fascinating story, told in Red's own words, of the home front in Norfolk during and after World War II, and an inspiring and articulate narrative of lessons that served him well throughout a positive and productive lifetime.
